

## Primary School Assessment Analysis 3 Year Review

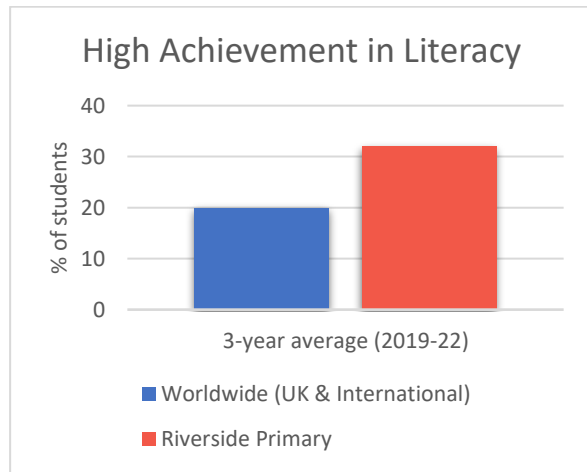

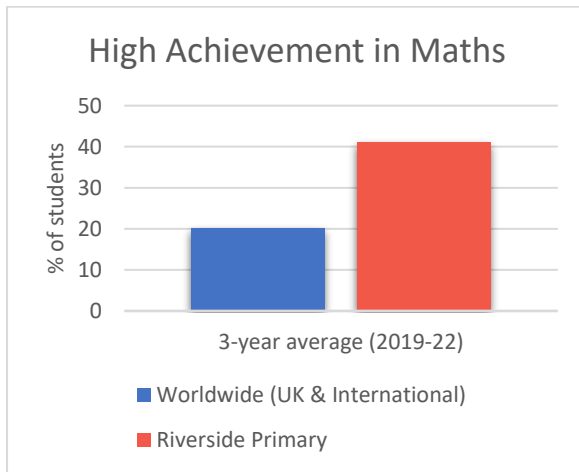

The Primary School has embedded an extensive summative assessment protocol in order to track student achievement, potential and wellbeing. The aim of this protocol is to use data, in a meaningful way, to ensure reflection of curriculum aims, pedagogy practices and student outcomes. To demonstrate the outstanding achievement of our students, a three-year assessment analysis has been compiled focusing on (1) student achievement, (2) key-stage outcomes, (3) value-added indicators. The assessment analysis includes graphical representations for each area of focus.

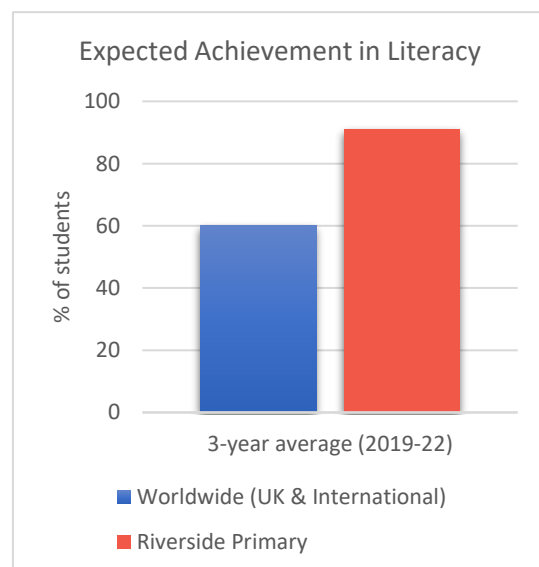

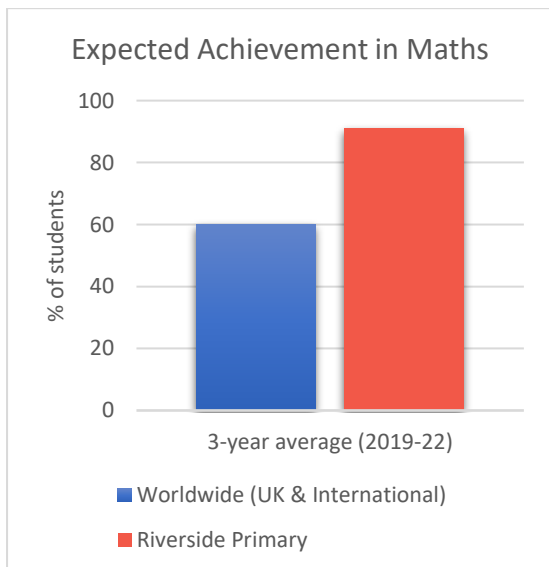

## Whole School Primary Maths & Literacy Performance

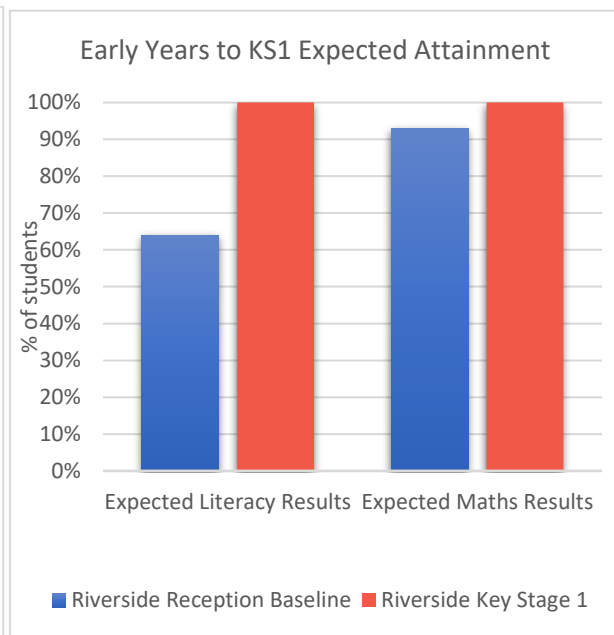

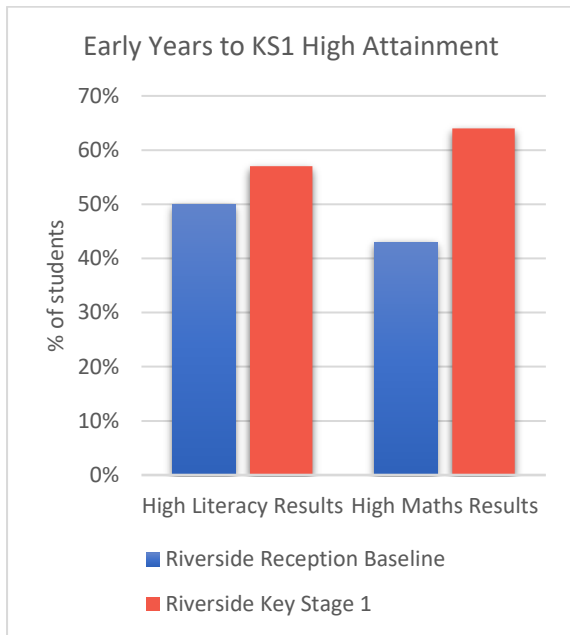

## High Attainment Outcomes in Maths & Literacy

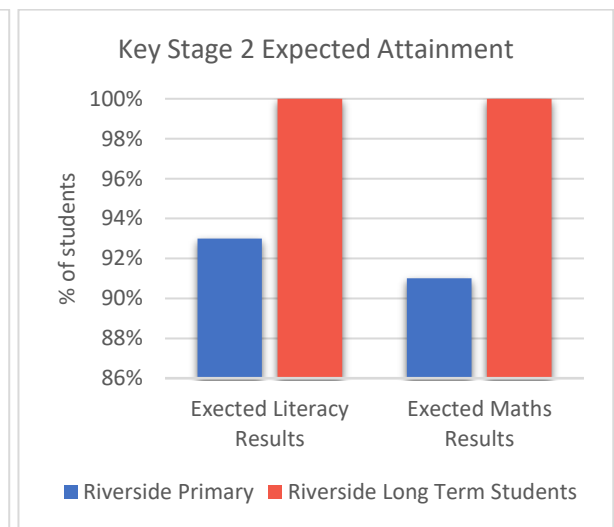

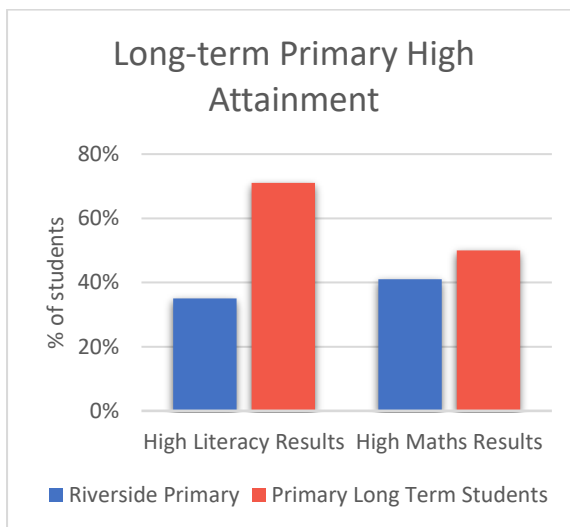

## Expected Attainment Outcomes in Maths & Literacy

## Early Years Reception to Key Stage 1 Achievement

## “Long Term” KS1 through KS2 Achievement

## Value-added Indicators for High Achievers
