## **1. Privacy notice for parents/carers**

Under data protection law, individuals have a right to be informed about how the school uses any personal data that it holds about them. We comply with this right by providing 'privacy notices' (sometimes called 'fair processing notices') to individuals where we are processing their personal data.

This privacy notice explains how we collect, store and use personal data about **students**.

Riverside School, Prague, is the 'data controller' for the purposes of data protection law.

The school's data protection officer is Tímea Piskáčková (see 'Contact us' below).

### **The personal data we hold**

Personal data that we may collect, use, store and share (when appropriate) about students includes, but is not restricted to:

- Contact details, contact preferences, date of birth, and identification documents
- Candidate numbers for examination boards, and relevant audio or video evidence of performance
- Results of internal assessments and externally set tests
- Student and curricular records
- Characteristics such as ethnic background or special educational needs
- Exclusion information
- Details of any medical conditions, physical and mental health
- Attendance information
- Safeguarding information
- Details of any support received, including care packages, plans, and support providers
- Photographs
- CCTV images captured in school

We may also hold data about students that we have received from other organisations, including other schools and local education authorities.

### **Why we use this data**

We use this data to:

- Support student learning
- Monitor and report on student progress
- Provide appropriate pastoral care
- Protect student welfare
- Assess the quality of our services
- Administer admissions waiting lists
- Carry out research
- Enhance communication with parents/guardians
- Facilitate school operations and management
- Comply with the law regarding data sharing

## **Our legal basis for using this data**

We only collect and use students' personal data when the law allows us to. Most commonly, we process it where:

- We need to comply with a legal obligation
- We need it to perform an official task in the public interest

Less commonly, we may also process students' personal data in situations where:

- We have obtained consent to use it in a certain way
- We need to protect the individual's vital interests (or someone else's interests)

Where we have obtained consent to use students' personal data, this consent can be withdrawn at any time. We will make this clear when we ask for consent, and explain how consent can be withdrawn.

Some of the reasons listed above for collecting and using students' personal data overlap, and there may be several grounds which justify our use of this data.

## **Collecting this information**

While the majority of information we collect about students is mandatory, there is some information that can be provided voluntarily.

Whenever we seek to collect information from you or your child, we make it clear whether providing it is mandatory or optional. If it is mandatory, we will explain the possible consequences of not complying.

## **How we store this data**

We keep personal information about students while they are attending our school. We may also keep it beyond their attendance at our school if this is necessary in order to comply with our legal obligations. Our record retention schedule sets out how long we keep information about students. The record retention schedule is available upon request to the Data Protection Officer.

## **Data sharing**

We do not share information about students with any third party without consent unless the law and our policies allow us to do so.

Where it is legally required, or necessary (and it complies with data protection law) we may share personal information about students with:

- The Ministry of Education – to meet our legal obligations to share certain information with it, such as safeguarding concerns and exclusions
- The student's family and representatives
- Examining bodies - to enable Riverside students to sit external examinations and for Riverside to deliver the IGCSE and IB Diploma qualifications, as prescribed by Edexcel, CIE, and the IBO through our centre.
  - The examination boards use the student's personal data for processing exam entries and results, marking exam scripts, issuing certificates, processing enquiries about results and investigating cases of malpractice.
  - When applications for access arrangements, special consideration or the withdrawal of entries are made, the examination boards will use the candidates special categories (sensitive) of personal data for the purposes of processing these applications.

- Our regulator - the approved inspectorate for British Schools Overseas (Penta International), the New England Association of Schools and Colleges and the Council of International Schools for the purposes of school accreditation.

- Give you a copy of the information in an intelligible form

Individuals also have the right for their personal information to be transmitted electronically to another organisation in certain circumstances.

If you would like to make a request please contact our data protection officer.

Parents/carers may also access their child’s **educational record**. To request access, please contact the School’s data protection officer.
